### Dream Maker

Since 1992 Maurice has helped 1000s of entrepreneurs and professionals succeed in business and life. Maurice found the vast majority of business consultants and coaches spoke theory, with no real-world experience of what works and what doesn't (as he had) to back it up. A pastor and serial entrepreneur himself, Maurice teaches from personal experience and not simply theory.

He is most well-known for his gift of being able to explain principles to listeners in a clear, plain language style making it easy for them to grasp complex concepts and implement them immediately. Maurice also often speaks to youth encouraging them to strive for excellence and success.

### Action Taker

Maurice hosts various seminars designed to empower entrepreneurs and individuals to take their business and life to the next level. Maurice believes in adding value to others in order to attain success and shows people how to unleash the leader within themselves. With a business focus on psychographics, or the emotional reason behind consumers buying decisions, he explains how to supercharge every aspect of life and business.

In 2012 Maurice gathered top coaches and trainers to help him provide hands on training and certify those looking to be managers, coaches, authors, speakers and trainers in online marketing.
